PROFESSIONAL SUMMARY

Full-Stack Developer with 5 years of experience in designing, developing, and maintaining dynamic, high-quality web applications. Skilled in both front-end and back-end development, including RESTful/Graphql API integration and robust database management. Proficient in deploying scalable applications on cloud platforms, with a strong focus on delivering high-performance, secure, and responsive solutions. A collaborative team player with excellent problem-solving abilities, consistently exceeding project expectations by paying attention to detail and optimizing workflows.

CORE SKILLS

- **Languages:** JavaScript,TypeScript, Java, Python,SQL
- **Database:** Mongodb,Mysql,Redis,Postgres
- **Backend:** Node.js (Express and Nestjs)
- **Tools**: VMs, Docker,Linux,Git
- **Frontend**: Tailwind Css,ReactJS,Redux, NextJs
- **Testing**: Mocha,super test,Jest,Chai,Enzyme

ADDITIONAL SKILLS

- Prisma / Sequealize ORM
- Agile methodologies,TDD
- AWS,Bash Scripting
- Github Actions (CI/CD)
- Cloud platforms (AWS,GCP)
- RESTful/GraphQl API Design

SOFT SKILLS

Teamwork , communication, problem solving, attention to detail , willingness to learn, creativity,adaptability

EXPERIENCE

HIS IT Solution Limited,Hong Kong (Contract)- *Full Stack Developer*

March 2024- Oct 2024

- Developed and maintained scalable web applications using Next.js and React for both client-facing and internal projects.
- Implemented server-side rendering (SSR) and static site generation (SSG) with Next.js to enhance SEO and improve application performance.
- Architected RESTful APIs and microservices using Node.js, ensuring seamless integration with frontend applications.
- Integrated MongoDB as the primary database, optimizing queries and indexing strategies to handle large-scale data efficiently.

- Implemented automated testing strategies using selenium for frontend components and Mocha, Chai, and **Supertest** for backend services, achieving over 90% test coverage.
- Enhanced application performance by identifying and resolving bottlenecks in both frontend and backend codebases.

Bloocode Technology, Nigeria (Remote-Contract) - *Backend Developer*

Feb 2024 - Oct 2024

- Designed RESTful APIs and microservices architecture using Node.js, facilitating seamless integration with frontend applications.
- Enhanced application security and compliance with regulatory standards, reducing vulnerability incidents by 15%.
- Automated backend project deployment with GitHub Actions, streamlining CI/CD processes, and decreasing deployment time by 50%.
- Developed a fintech platform for cross-border payments, expanding global reach and handling transactions across 5+ regions.
- Collaborated in Agile processes, contributing to sprint planning and retrospectives to ensure on-time delivery of 95% of project milestones.

Capacity Bay Inc, Maryland USA (Remote) - *Full-Stack developer Developer*

Jan 2020 - Dec 2023

- Engineered responsive web applications using React and Next.js, implementing SSR for optimized routing and performance.
- Developed backend services with Node.js and maintained integration testing for module reliability and performance, achieving 98% uptime across applications.
- Practiced Agile methodologies, participating in daily stand-ups and retrospectives to optimize team productivity.
- Secured applications through best practices, reducing exposure to vulnerabilities and ensuring compliance with industry standards.
- Utilized Git for version control, managing code across distributed teams to maintain seamless collaboration and efficient workflows.

Capacity Bay Inc, Maryland USA (Remote) - *Bootcamp Tutor*

Mar 2019 - Jan 2021

- Delivered Linux administration courses, covering server management and security essentials for effective systems administration.
- Taught MySQL database management, guiding students through practical database administration tasks and real-world scenarios.

EDUCATION

Abia State University, Nigeria - *Bsc Computer Science,*

INTERESTS

DevOps, Artificial Intelligence, Software Engineering., Web3
